

HUBBARD TESTIMONIAL

STRESSGUARD STARTER PACK PLUS

"MY CATTLE STAYED HEALTHY IN A VERY TOUGH FALL."

Despite having 17.5 inches of rain in 30 days, Andy's cattle did not back off feed at all.

The cattle were weaned on September 7th with an average weight of 451 lbs. He fed 0.5 pounds of StressGuard Starter Pack Plus for 28 days. When Andy weighed his cattle after 32 days on feed they weighed 550 lbs, which equals a 3.1 lb ADG.

"WITH THE STRESSGUARD STARTER PLUS PROGRAM THE CATTLE SHOWED NO SIGNS OF SNOTTY NOSES AND WE DIDN'T HAVE TO GIVE ANY SHOTS!"

-ANDY WHITE
